Hi John –

Want to let you know that Amec said yesterday that they will be releasing the rest of the equipment in the next couple of weeks (they did not sound like they were in a hurry), except for the equipment that they have built into their EBR system, which was some of the above ground treatment equipment (possibly skimmers, LGAC). Based on what was said, it is not clear who owns the equipment – I see that you have liquid carbon tanks on your list.

Let me know if you get back all of your equipment –

Eva

Hello Eva.

I appreciate any assistance that you can provide TerraTherm in retrieving its equipment from the site. The equipment is idle and was substantially demobilized prior to TerraTherm's receipt of the Stop Work Order. Attached is a list of the equipment at issue. Please let me know if you need any further information.

More generally, do you know the current status of the project? As indicated in my letter to the Air Force that you received, AMEC has refused to pay TerraTherm for all of the SEE-related work that we performed at the site based on the unsubstantiated allegation that TerraTherm may not have performed the work properly. Equally frustrating, AMEC has ignored our attempts to communicate regarding this matter, so we have no idea what the current status is.

Best regards and happy holidays!
John

Equipment ID	Description
S-101 & P-101 A/B	Moisture Separator Skid
E-101-01	Vapor Cooler
E-101-02	Vapor Cooler
E-101-03	Vapor Cooler
S-102 & P-102 A/B	Moisture Separator Skid
B-101 A/B	Vacuum Blowers
E-102-01 & -02	Liquid Heat Exchangers
Z-103-01 & P-111-01 A&B	Air Stripper Skid
Z-103-02 & P-111-02 A&B	Air Stripper Skid
S-103-01 & P-103-01 A&B	Moisture Separator Skid
B-102-01	Air Stripper Blower Skid

B-102-02	Air Stripper Blower Skid
FX-104	Multi Bag Filter Vessel Skid
S-103-02 & P-103-02 A&B	Moisture Separator Skid
MSWB-01	Electrical Switchgear
DP-12	Electrical Switchgear
DP-13	Electrical Switchgear
DP-11	Electrical Switchboard
ATS-1	Automatic Transfer Switch
ATS-2	Automatic Transfer Switch
LC-102	Transformer Skid
LC-103	Transformer, Single Phase
AE-101	Flame Analyzer
T-104	Primary NAPL Recovery Tank
S-106-01/02/03	NAPL Conditioning System
T-101	LNAPL Tank
W-101-01 & -02	Cooling Towers
P-105-01 A & B, -02 A & B, -03 A & B	Cooling Tower Pump Skids
C-101 A & B, C-102 A & B	Liquid Phase Carbon Vessels

Hi John -

This response from Amec is very frustrating to us. Carolyn is going to talk to the EPA attorney. We would like to try to get your equipment released, we think it would be best if there is a list of what equipment remaining on site is yours that you want to remove.

Eva

Hi Eva,

FYI -are you aware of any progress to release TerraTherm's equipment from the site?

Have a great weekend.

John

Attn: TeeraTherm

Reference your letter dated 30 November 2016 addressed to Naomi Alvarado/Contracting Officer. The Air Force has reviewed your request and has reached out to AMEC for resolution. It is my understanding by discussing this concern with AMEC, that TerraTherm has a design-build subcontract with AMEC Foster Wheeler to perform Steam Enhanced Extraction work at Williams AFB. The EPA has questioned the adequacy of that work. Therefore, although AMEC Foster Wheeler maybe challenging the EPA's contentions, nevertheless AMEC believes they have a legal right to withhold payments to TerraTherm until there has been a disposition of those contentions. This concern is being handled between the respective counsels. I am attaching a copy of the AMEC Payment & Performance bond for your action as necessary. If you have any further questions, let me know. Thank you.
